SolarFlex

Renewaa SolarFlex

- Engineered to store and utilize solar power efficiently
- Built to withstand different weather conditions
- Suitable for both residential and commercial solar power systems

Features

- Wall-Mounted Design to elevate your space
- Space-Saving, Elegant Look which is Perfect for any home or office
- Built-in Display for Real-Time Monitoring to check battery status, charge levels, and more
- Mounts easily to the wall, offering a clean look
- Powerful Performance with Long-lasting Reliability

SPECIFICATIONS

	SF48100	SF48150	SF48200
Model	5kWh	8kWh	10kWh
Capacity	100Ah	150Ah	200Ah
Battery Type	LFP		
Nominal Voltage	51.2V		
Operating Voltage	48V - 57.6V		
Charge/Discharge Current	80A		
Charge/Discharge Power	4000W		
Max. Charge/Discharge Current	100A		
Max. Charge/Discharge Power	5000W		
Depth of Discharge (DOD)	>95%		
Scalability	Upto 6 units in parallel		
Communication	RS485 / CAN		
Protection Level	n/a		
Cycle Life (80% DOD)	5000		
Charging Temperature	0-55°C		
Discharging Temperature	(minus) 20 - 60°C		
Display	LED Display		
Installation	Wall Mounted		
Protection	Built in Smart BMS		
Warranty	10 Years		
Net Weight	43.8kg	60.3kg	82.2kg
Product dimensions(W*L*H)	388*616*220	672*456*220	769*549*220
